

## **Center for the Study of Evangelicalism**

F&A recoveries are used to create and sustain an infrastructure for research and sponsored programs activity. The Center will participate in the distribution of indirect cost incentives in the following manner:

- a) When a sponsored program is submitted by a Center Faculty Member whose primary appointment is in LAS, one half of the indirect costs normally allocated to Departments (currently 50% of the College's F&A recovery) will accrue to the Center and the other half is split among the Member(s) Department;
- b) When a grant is submitted by a Center Member whose primary appointment is outside LAS, then the Center will negotiate sharing the indirect cost incentives prior to grant submission.
- c) When a grant or contract application is submitted by a Center Member whose leadership appointment is in the Center (e.g., the Director or Associate Director), then the full amount of indirect costs normally allocated to Departments by LAS will accrue to the Center.

F&A funds recovered by the Center (i.e., per policy 900- 003) will be divided between the Center, the supporting administrative office, and the principal investigator.

- The Center will retain 30%
- The Office providing grant administrative support will be given 20%. Should the Office of Research provide post-award support, this recovery will be waived until May 15, 2027.
- The PI will be given 50%.
