

LAS POLICY ON F&A DISTRIBUTION

Approved by the LAS Chairs and Directors: May 7, 1997

Resubmitted to AVC-Research: June 21, 2022

- F&A funds returned to the College of Letters, Arts, and Sciences will be divided between the college, the department, and the principal investigator. The college will retain 25%, the department will be given 50%, and the PI will be given 25%.
- At all levels, these funds must be used to support research and creative work.
- Each year, PI's who have received F&A will report on its uses to the department chair (by memo). Similarly, departments will report to the dean.
- If F&A is generated from a grant or contract submitted by two or more faculty from different departments (or colleges), division of F&A must be decided at the time of submission of the grant.
